

To Property Owners in the
Antelope Valley Mosquito and Vector Control District :

Important Virtual Neighborhood Meeting
Tuesday May 17th at 2:00 pm

The Antelope Valley Mosquito and Vector Control District (Antelope Valley MVCD) is responsible for providing mosquito, vector and disease testing and control services to residents within your community covering over 287 square miles, including the cities of Lancaster and Palmdale, as well as the community of Quartz Hill and surrounding unincorporated areas. Antelope Valley MVCD is asking property owners to vote on a proposed funding measure to ensure continued and improved mosquito, vector and disease testing and control services in your area. We invite you to participate in our upcoming neighborhood meeting where main topics for discussion will include levels of service and revenue options.

As an Antelope MVCD property owner, you are invited to a virtual public neighborhood meeting as detailed below:

Antelope Valley MVCD Virtual Neighborhood Meeting
May 17th at 2:00 pm

Please contact Leann@avmosquito.org for Zoom link

We look forward to your input regarding the future of mosquito, vector and disease testing and control services in your Antelope Valley MVCD community. Refer to our website for periodic updates and facts about your District at avmosquito.org.
